

The ministry you have got going there is so great...

I jsut wanted to tell you that the ministry you have got going there is so great. The idea came ot me several years ago when I was in college, and as I read the book "Wild at Heart" and "The Sacred Romance", to have some type of men's ministry that took men into the wilderness and go them connected with themselves and God. When I heard what Waking the Passion was all about, I knew that it was the exact type of ministry I was thinking about.
